EXPERIENCE

Dev.Pro | *Senior Software Engineer*

MAY 2022 - PRESENT

Develop and maintain software systems using Angular, Nodejs, Docker, and Typescript. I participated in code reviews, troubleshooting, and aimed to improve my skills in new technologies. Collaborated with team members to deliver projects on time and contribute to the company's knowledge base by documenting best practices. Worked with clients such as Inveniam & Global Payments.

Oceans Code Experts | *Senior Software Consultant*

MAY 2022 - AUG 2022

Provided expert-level guidance and support to clients in developing software solutions. Consulted with clients, designed and developed solutions, analyzed systems, and provided technical guidance to team members. I stayed up-to-date with the latest industry trends.

BairesDev | *Fullstack Software Engineer*

FEB 2021 - JULY 2022

I worked in the "Staff Augmentation Program," collaborating closely with the client team at [Blackspectacles](#) on the development of their new product, [Spectacular](#). As a full-stack engineer, I utilized various technologies, frameworks, and libraries such as Loopback4, Node.js, React.js, Material-UI, and PostgreSQL.

MusicPlayce | *Techlead / Cloud Architect*

APR 2020 - MAY 2021

I successfully planned, organized, and executed the migration of a monolithic Node.js application into a distributed serverless architecture. This involved harnessing the latest cloud technologies from AWS, including Cognito, Appsync, ElastiCache, ECS on Fargate, Lambdas, SQS, SNS, and more. Throughout the process, I provided oversight for the team's development and ensured effective management of the project. By leveraging these cutting-edge technologies, I streamlined the application's performance, scalability, and security, resulting in improved efficiency and enhanced user experience. [MusicPlayce](#)

EDUCATION

[PUC - GO](#), Goiânia —
Bachelor; Computer
Engineering

AGO 2016 - 2020

[Udemy - Linux
Administration Bootcamp](#),
Online — Unix Systems
Administration

AGO 2018 - NOV 2018

[Udemy - Fullstack Web
development](#), Online

JUL 2018 - NOV 2018

TECH SKILLS

TypeScript, Nodejs, Docker,
Go Lang, ReactJs, AngularJs,
VueJs, NextJs, JavaScript,
Nginx, GitlabCI, C#, .NET
CORE, Linux, ExpressJs,
Kubernetes, AWS, Git,
aws-cdk

LANGUAGES

English - Fluent - C1 Advanced

Portuguese - Fluent - Native

Spanish - Basic

Toctec Assessoria | Fullstack Software Engineer

AUG 2019 - AUG 2020

Developed SASS 'Infinity', a comprehensive platform in collaboration with Caiapó, a leading construction company, to effectively manage large-scale construction projects such as highways and bridges. Utilized a powerful technology stack including Azure, .NET Core, MySQL, and Angular 8. <https://toctec.eng.br/>

CTCI | Solo-dev / Software Engineer

APR 2019 - DEC 2020

Developed a dynamic web platform enabling streamlined club operations, encompassing functions such as generating digitally signed PDF statements, customer management, analytics, and a CRM for blog content. Implemented an advanced technology stack including Node.js, React.js, Nginx, Docker, and Google Cloud Platform. Explore the project at <https://ctci.org.br/> and access the platform at <https://app.ctci.org.br>.

Big App | Software Engineer

NOV 2018 - JUNE 2019

As a skilled full-stack engineer, I actively participated in customer meetings, providing valuable insights and conducting thorough requirement surveys. Additionally, I carried out various development tasks, ensuring meticulous planning and system design. My focus revolved around collaborating with [FisioAvalia](#), leveraging my expertise to deliver high-quality solutions and contribute to their ongoing success.

BTCC Conexão Cliente | Junior Software Engineer

JUN 2017 - OCT 2018

I used Python for analyzing large datasets from spreadsheets, aiding in business operation optimization. I was trained in the use of proprietary tools for maintaining a sizable legacy code base, contributing to improved system performance. This role enhanced my practical knowledge of software development within a professional, agile team environment, and fostered my skills in problem-solving and bug resolution.

Winter Representações | IT Intern

AUG 2016 - APR 2017

Perform general office tasks such as selecting, organizing, filing and issuing documents, writing correspondences and reports. Update customer and supplier records, register requisitions and prepare spreadsheets for administrative controls. Maintained frequently used software up to date.

Rio Quente Resorts | Bilingual Technical Support

JUNE 2015 - FEB 2016

Provide customer support via telecommunications channels, offering efficient problem solving. Analyzing potential future failures, preparing spreadsheets, records documents, and processing service orders for field technicians.
